

4th Microsymposium on Asymmetric Synthesis

an international event

7 September, 2011
Warsaw

Welcome to Microsymposium on Asymmetric Synthesis in Warsaw

- 10⁰⁰** **prof. Petri Pihko** – From co-catalysis to dual catalysis: efficiency and selectivity in organocatalysis
Department of Chemistry, University of Jyväskylä, Finland
- 11⁰⁰** **coffee break**
- 11³⁰** **prof. Radovan Sebesta** – Diastereoselective and enantioselective tandem conjugate addition with Mannich reaction
Department of Organic Chemistry, Comenius University, Bratislava, Slovakia
- dr. Karol Kacprzak** – *Cinchona* alkaloids – what they can do beside catalysis?
Department of Chemistry, A. Mickiewicz University, Poznań, Poland
- prof. Mathias Christmann** – Evaluation of strategies for the step-efficient assembly of densely functionalized molecules
TU Dortmund, Dortmund, Germany
- 13³⁰** **lunch break**
- 14³⁰-15³⁰** **poster session**
- 15³⁰** **prof. Shū Kobayashi** – New dimension of chiral acid and base catalysis
Department of Chemistry, School of Science, The University of Tokyo, Japan
- 17⁰⁰** **conference dinner**
