

Institute of Organic Chemistry PAS with funding from the European Funds

The Institute of Organic Chemistry of the Polish Academy of Sciences has signed a funding agreement under the European Funds for a Modern Economy 2021–2027 (FENG) programme, Priority: Innovation-friendly environment, Measure: Grants for Eurogrants – Research Organisations.

Beneficiary: Institute of Organic Chemistry, Polish Academy of Sciences

Programme: European Funds for a Modern Economy 2021–2027 (FENG), Priority II

Project title: *Preparation of the Eurogrant proposal “MATERIALIZE – Methodology and Synthesis Advancement To Empower Researchers In Advanced optoelectronic materials” under the MSCA COFUND 2025 programme*

Project objective: The aim of the project is to prepare the Eurogrant proposal “MATERIALIZE” for the MSCA COFUND 2025 programme, which supports the development of scientific research and the mobility of researchers in the field of advanced optoelectronic materials.

Scope and activities: Within the project, a complete Eurogrant proposal for the EU programme will be developed, including the preparation of the research concept and application documentation in line with the requirements of the MSCA COFUND programme.

Target group: The project is addressed to the research team of the Institute of Organic Chemistry PAS and to the scientific community involved in research on advanced optoelectronic materials.

Project outcomes: The project will result in the submission of a Eurogrant proposal to the MSCA COFUND programme, enabling the Institute to apply for further EU funding to conduct research and strengthen its scientific potential.

Total project value: PLN 19,500.00

European Funds contribution: PLN 19,500.00

Project implementation period: from **24 February 2025 to 31 December 2025**
